ATTEND MEN'S CLUB FORMAL DANCE

THE BAY LEAF

S. T. C. ASSEMBLY HELD TODAY, 2 P. M.

PUBLISHED WEEKLY BY THE ASSOCIATED STUDENTS OF THE SAN FRANCISCO STATE TEACHERS COLLEGE

VOL. X SAN FRANCISCO, CALIFORNIA, WEDNESDAY, JANUARY 21, 1931 No. 8

SCIENCE WING TO BE ADDED

Men's Club Will Give Formal Dance In Gym

JANUARY 31 IS DATE

Orchestra Of Eight Pieces Will Play

EVERETT O'ROURKE, President

A formal dance will be given by the Men's Club in the College Gymnasium from nine to twelve Saturday evening, January 31. The Gymnasium is to be completely decorated in the college colors for the dance. A Laughner and Harris eight piece orchestra will furnish music and special song numbers.

The bids for the formal will be limited to one hundred fifty and are being sold for two dollars each. Bids may be obtained at the book store this week. Since the bids are going fast, the committee advises members of the student body to waste no time in obtaining reservations if they intend to attend the first big formal of the year and the first dance of the year to be given at the college. The dance programs are to be a novel surprise and will be designed in the purple and gold of our college.

Since this is the first dance of the semester and the first dance ever given by the Men's Club, the committee under the direction of Don Pryor is sparing no efforts to make this a formal that will be appreciated. They ask for the wholehearted cooperation of the student body of San Francisco State Teachers College in order that this dance may be one that will be remembered as among the best.

Faculty Men Meet

"For it's always fair weather when good fellows get together." With the idea of the old song in mind, the faculty men who have reorganized the faculty men's former luncheons which were dropped two years ago.

The first of the bi-monthly get-togethers was held today. Mr. Carlos Mundt of the science department, is in charge of the affair.

Petey the Pedagogue Says:

Frightened frosh fight feverishly for being freshmen.

Bathing Suits Are Sold In Store

After two weeks of being "swamped" with work, the Book Store is now again able to meet the regular student demands. More post boxes have been added, in order to insure each student's receiving his mail.

Mrs. Marples announces that bathing suits and yellow school sweaters have been added to the ever-increasing stock of the store. A good discount will be made on all athletic equipment. Also, in case you do not already know, a circulation library is maintained. You can read many of the newest novels for ten cents a week.

College Theatre Adopts New Rule

At the first meeting of the College Theatre on January 13, 1931, it was decided to adopt a new policy for that organization. According to Mary Connelly, the new president of the club, their plan is to give several one act plays during the lunch hours of the Spring term.

The membrs of the club are also planning to put on puppet shows for the children of the Training school. Recently the children and also students of the College have taken a tremendous interest in Puppetry, and because of this interest the club will sponsor a few shows of that type.

This very popular organization of San Francisco State Teachers College has also received and accepted an invitation from San Jose State Teachers College to participate in a contest to be held in April at that College. A cash award will be given for the best one-act play presented from among the many different Colleges there assembled. Miss Connelly also added that the members of the College Theatre have secret hopes of winning the prize. As yet they have not decided upon the play which they will present.

New Course Will Be Offered Soon

All biological science majors and minors will soon learn that a new course in biological science will be offered next semester. This course will be a lower division course worth two units. Its title is *The History of Biology*, and it covers all biological thinking from early Greek times to the present day. Miss Edith A. Pickard will be the instructor, and she will lecture on the lives and works of the outstanding contributors to biological science. This course promises to be an extremely interesting one and doubtless there will be a large enrollment when it is given next semester.

Frosh Need Mothers

This school, according to Mrs. K. Bridge, is badly in need of another club. So many mothers of entering freshmen attended their daughters' Physical Examinations that Mrs. Bridge feels organization is necessary.

Perhaps, however, the new P. F. C. will settle the problem!

Freshman Reception Will Take Place January 28

President and Mrs. Roberts To Grace Receiving Line

This term's reception to the freshmen will take place Wednesday, January 28, from four to five o'clock. The entire faculty and student body are invited to attend; refreshments will be served.

President and Mrs. A. C. Roberts will grace the receiving line. Alice Heim has charge of the day. Her sub-chairmen are: Sadie Topesco, refreshments; Rose Beery, invitations; and Laura Foster, decorations. A large group of hostesses will do everything possible to guarantee a pleasant few minutes.

President and Mrs. Roberts; Dean and Mrs. Clarence DuFour; Dean and Mrs. David Cox; Dean Mary Ward; Miss Eva Levy; Catherine O'Sullivan; uresident of the student body; Marion Donaldson, vice-president; Alice ander, secretary; Marjorie Phillips, treasurer; and Dorothy Williamson, yell leader, will be in the receiving line.

PRACTICE TEACHERS BEGIN SPRING WORK

Once more ambitious to-be teachers are plunging whole-heartedly into the actual work of dealing with children for the first time. Dr. Sherman Brown, principal of the training school, states that he has never seen a more enthusiastic group.

Forty practice teachers have been placed in the junior high schools. Twenty are diligently at work in Richmond. Ten grammar school practice teachers are busy in the city schools, five placed at Franklin and five at Edison.

Again the cogs of Frederic Burk are moving smoothly. There is a working squad of seventy-five, including student teachers and directors. Few changes have been made in last semester's curriculum. However, a graduate student, Mrs. Adele Bailey, has been engaged as director of activities to assist Mrs. Spozio. With this new assistant much is expected to be accomplished in the creative work of the school, and more time will be able to be given to student entertainments, plays, pantomimes, and the like.

Passes To Be Given

Swimming passes for the Y. W. C. A. Pool may be obtained from Miss Doris Holtz of the Women's Physical Education Department. Any woman in this college may use these passes providing that she has passed a medical examination given by the College Physician, Doctor Edna Barney. The pass entitles the woman student to enter the pool for the small fee of twenty five cents.

Assembly Welcomes New Students To College

Dr. Roberts To Speak At First Gathering of Term

The first assembly of the semester will be held today in the First Baptist Church. Viola Giesen, chairman of assemblies, has prepared the following program:

1. Music processional for platformers, Miss Hilda Keel-Smith.

2. Hail San Francisco, college hymn, accompanied by Miss Eileen McCall.

3. Viola Giesen, chairman, a Introduction of co-chairman, Marion Donaldson.

4. Catherine O'Sullivan, president of Student Body. (a) Introduction of student body officers; (b) Introduction of Editors of *Bay Leaf* and *Franciscan*.

5. Dr. Alexander Roberts, president of S. T. C.: (a) Introduction of new faculty members (b) Hail San Francisco, college hymn.

All two o'clock classes are dismissed for the assembly. Dr. Roberts, speaker of the day, will deliver his usual welcome to new and old students. Catherine O'Sullivan, student body president, will introduce the members of her immediate staff, Marion Donaldson, vice president; Alice Zander, secretary; Marjorie Phillips, treasurer; and Dorothy Williamson, yell leader. Mildred Scott and Ciwa Griffiths, editors of the *Bay Leaf* and *Franciscan* respectively will also be presented. Viola Giesen, chairman, will introduce her new co-chairman, Marion Donaldson who is also vice-president of the college student body.

MEETING IS HELD BY PARENT-FACULTY

A combined social and business meeting of the Parent Faculty Club, formerly known as the Parent Teachers Association of the San Francisco State Teachers College, was held Wednesday, January 14 in the Activities Room. During the business meeting, mothers of the freshmen were initiated into the club. This club has included in its membership, Mrs. Alexander Roberts and Mrs. Clarence DuFour. During the meeting a new constitution was adopted based on rendering service to the student body. The Student Welfare Committee, a sub-committee of the Parent Faculty Club is completing plans for establishing scholarships and loan funds for the benefit of the students. The president, Mrs. Barbieri, hopes that many new members will join at the next meeting which will be held on the first Wednesday in February. After the meeting the members adjourned to the Domestic Science Department of the Frederic Burk School where coffee and cake was served to them.

Fame of Annual Reaches Islands

IT is amazing the things that some people do in order to break into print. Press agents spend sleepless nights to think up ingenious plots which have not been used before. Magazines spend thousands weekly on advertising matter alone.

Yet the really talented people and the really worthwhile publications need no expensive boosting. Their fame travels far and wide reaching the furthermost corners of the earth.

Recently an article was published in *The Fiji Times and Herald* of Suva, Fiji Islands, in which full details were given for the 1931 annual, the *Franciscan* of the San Francisco State Teachers College. It stated that through the *Bayleaf*, the college newspaper, Ciwa Griffiths, editor-in-chief of the *Franciscan*, was calling for volunteers to help with the hand painting of the division pages.

Miss Griffiths is still waiting for the said volunteers from the Fiji Islands.

Money For Additional Rooms Is Available

WORK IS BEGINNING

S. T. C. On Governor's Emergency Budget

DR. ROBERTS

"We are in the governor's emergency budget for $100,000," announces Dr. Alexander C. Roberts, president of the college. The money is available at once and is to be used for the construction of additional science rooms at S. T. C.

A great deal was said last term concerning extensive building programs for State Teachers College, but not many students expected them to materialize very soon. Nevertheless, a new science wing is to be added to Anderson Hall in the very near future.

This wing will be used entirely for physical science, and Anderson Hall will be partly remodeled so that it will be just a biological science building. The wing will probably be built facing the green square of grass, so that the three wings of the science building and the gym will form a square. Work on the new building is expected to start almost immediately.

The biological science instructors are already making plans to remodel the chemistry and physics laboratories, so that they will be suitable to be used as biological science laboratories. This necessitates putting in new tables, cabinets, and lights.

A portion of the inaugural address of Governor James Rolph, Jr. relative to helping the state teacher colleges will be recalled. Governor Rolph promised to help always the state institutions which had as their work the training of teachers.

Further improvements for S. T. C., were in evidence last week. Work was begun and completed on concrete curb and drains, which are for the protection of the lower playfield and terraces. Playground ap-

(Con't. on page four, col. 1)

Dr. Arnesen Is Not Paid Janitor

Dr. E. Arneson's class has found a new way to utilize the energies of an English professor. During the meeting of an English 1B class, someone complained that the light on the blackboard was poor. Dr. Arnesen obligingly pulled down the shade and started to resume the class work. Another person complained that Dr. Arnesen had pulled down the wrong shade; so he goodnaturedly repaired the error. When a third person complained however, he evidently thought some one was trying to be funny; for he mumbled, "I'm not being paid for this."

Three Instructors Take Up New Work

With the opening of the new semester there are changes in the faculty, and the new instructors, Dr. Garland Ethel, Mr. James Sharp, and Mr. Maurice Amsden, are introduced to the student body

Dr. Ethel is in the Department of English, and is from the University of Washington.

Mr. Sharp, who is in the Social Science department, graduated from the University of California in 1922. He later obtained his Master of Arts degree in economics. He traveled in the Orient, finally remaining at the University of Nanking where he taught for a semester. Mr. Sharp is at present working for his Ph. D. at Stanford University.

Mr. Amsden has been teaching at the San Jose State Teachers College in the Science Department, and is taking over part of the chemistry work here. He mentioned that, although he has been so busy getting adjusted and has not had much time to look around, he nevertheless notices that the college is in a marked stage of expansion.

Low Frosh Hazing Starts With Fight

Crash! Biff! Umph!

No, it's not what you think. Two freshman boys are standing back to back in the middle of the campus fighting imaginary foes at the request of the upperclassmen. When the fighters pause, the stentorian voice of Jack Murphy calls out, "Hey, what'sa matter with you guys? Waitin' for Christmas or somethin'? Come on, get goin'. We ain't got all night and yuh gotta finish that "beef"!

The fight goes on. Soon a "fairy" dances across the campus to the fighters. The "fairy" continues to chase himself around and around the fighters.

Two freshmen fence-sitters, escape and in the confusion that follows, the miniature was on the campus is called off and the frosh hazing is ended for one day, at least.

S. S. 40 Re-organized

Mrs. Olive Cowell, Social Science instructor, spent her Christmas vacation re-organizing her plan of work for the *United States Government* classes. Since the international cooperation is becoming more and more prominent in world affairs today, Mrs. Cowell feels that the modern teacher should stress *world* citizenship in her classroom. Therefore, the Social Science 40 students, this term, will be taught the place of the United States in international affairs.

CALENDAR

Wednesday, January 21:
2 p. m.—First Assembly at the First Baptist Church.
Wednesday, January 28:
4 p. m.—Freshman Reception in the Gym.
Friday, January 30:
Phi Lambda Chi Pledges.
Saturday, January 31:
Mens' Club Formal.
Wednesday, February 4:
Glee Club Dinner Party.
Friday, February 6:
S. T. C. vs. Marin J. C. Gym, 4:00 o'clock.
Thursday, February 12:
Student Body Informal Dance.
Friday, February 13:
Senior Theater Party.
Sunday, February 15:
Phi Lambda Chi Formal Tea

Our Team

S. T. C. has launched on its career of intercollegiate athletics. Our basketball team has played a number of games this season with other colleges, and although they haven't won, they have fought hard and we are proud of them. These "hoopsters" of ours are pioneers. They form the very first team that has ever represented S. T. C. in the athletic field. They have planned schedules, followed them out, and planned more. They are working hard to put our college ahead in collegiate circles. They are building precedents of college life for S. T. C., and it is up to everyone here to support the team at the rallies and at the games.

If every other member of the student body had as much college spirit as the members of the basketball team and their coach have, it wouldn't take long for S. T. C. to be firmly established in intercollegiate athletics. The fellows on our team are doing "great," and we are proud of them.

WISE QUACKS

RUBE COLLECTS WIRES

They say that Rube Wolf made quite a hit down at the Warfield Friday.

From many of his old buddies and admirers he received stacks of telegrams. Lots of these he read to his large audience, 'midst smiles and plenty of blushes.

Here's one of the wires:

Best wishes, Rube. I just named a horse after you and he won by a nose.

Here's another:

Best of luck, Rube. Knock 'em stiff. National Casket Co.

Webb: Hey, Howard, let's you and me go out and haze a few frosh this lunch hour, huh?

Howy: No, Webb, I have to think of the wife and kids at home. Let's go and wrestle a street-car, or something easy.

Peter: What is mistletoe, a vine or a tree?

A Boy: Neither, it's an excuse.

If the University of Pittsburgh had a crew, would they use iron ores?

Scene: Any house party.

Bill: Was this a big party for you?

Ann: No, a lot of little ones.

Mr. Morse, who has climbed to precarious angles over an erroneous experiment apparatus:

"Now Mr. Bragg, as you know, there are various possibilities as soon as I make the slightest movement with this bunsen burner. What do you think I am now contemplating?"

Tom Bragg, who notes with a mixture of anguish and fiendish expectation that Mr. Morse's foot is gradually slipping away from the rest of his anatomy.

"I dunno. Suicide?"

FRANCISCAN FRIERS

TO A SECOND-HAND BOOK

Old book, you're rather shabby and
not altogether clean,
And I'm inclined to wonder just
what your past has been.
Although your subject matter is
decorous and deep,
A rakish air's about you — what
secrets do you keep?

How many small flirtations went
on before your face?
Who wrote on your enduring page:
"L. is in love with Grace?"
And who inscribed this trenchant
phase; "She's crazy about Joe."
Old book, for all your pious mien,
just how much do you know?

Dot Williamson: "How do you like my new outfit? I always get my clothes to match my car, you know."

Margaret Petray: "But, my dear, your dress is positively a wreck."

Dot: "Certainly, and my car is in the same condition."

Mary Kennett: "A friend of mine said that a friend of his suffers terribly from the heat."

Mae Quick: "Poor fellow, where does he live?"

Mary Kennett: "Oh, he isn't living."

Polite Frosh: "You know you've changed since I saw you last.

Sweet One: "And how? For better or for worse?"

Polite Frosh: "My dear, you know you could only change for the better."

Dean Ward: "Above all things a young woman should be chaste—"

Doris Weinstrom: "By whom?"

Want Ad Section: "Oh I want what I want when I want it."

VIEWS OF THE NEWS

By VIOLA GIESEN

California celebrates
In ways you can't reproach . . .
Because it got in "Navy Bill"
Who's something like our coach!!!

The lowly have to suffer
In ways that oft' amaze . . .
But freshmen ought to run
When sophs are out to haze.

The photographic tale
Of this, our universe,
Is now compact . . . so scientists
In future can converse.

Pessimism nowadays
Is what we can't afford . . .
Let's cheer since fifty thousand souls
Got work from Henry Ford!!!

Whatever paper you can read
Has something to relate
About the way our "hoopsters" play
For San Francisco State!!!

The way to get publicity
Today is hard to know . . .
But sure, we'll see your picture if
You mix with Clara Bow!!!

December '34 Class Of New Freshmen Has Unique Characters

Although the class of December '34 has been at college for but a short time, personalities are making themselves known.

We wonder:

Why Patricia Millsap rides in rumble seats?

Where Bill King got that bored expression?

What Mildred Roof would do without a piano?

How it happened that Flo Humphreys cannot be dignified like big sister Eunice?

If Dora Schiro ever sees anything that is not "cute" or "darling"?

Will anything provoke Frederick James Masson?

Is Bertha Burgh determined to live in the library?

For how long Leo Alderman will continue to be so serious about it all?

Who are the two big football heroes from University High who have conceded to grace the college?

When Johnie Bucannon will cease being girl shy?

What is Norbert Nichols power over women?

How long it will be before all the college sheiks have fallen before Dorothy Friedorff's smile?

If Jack Wise ever forgets that dignified usher air?

Zoology Students Work On Dogfish

"How about those sharks?" "Say, are those the dogfish?" Such exclamations are not at all out of place in the Biological Science 18 class, for the advanced zoology students are preparing to spend several weeks of the semester dissecting spiny dogfish. This course, according to Miss Edith A. Pickard, the instructor, is very popular this semester. The class was limited to only twenty-four members, and it was necessary to refuse admission to a great many more people. The demand for this course is so great that, contrary to custom, it will probably be given in the fall.

Miss Pickard says that part of the instruction will be given at the Steinhart Acquarium where the students can observe the fish about which she will lecture. Biological Science 1B is primarily a comparative study of the embryology and morphology of vertebrate groups. It is required for all physical education majors, biological science majors and minors, and pre-medical and pre-dental students.

HOW TO FIND PROF!

When you're looking for a "prof"
Looking high and looking low,
And you rarely ever find him,
There's a place you didn't go,
He may be in the Bookstore
He may be down the "caf"
He may be in his office enjoying a
laugh,
He may be in his roadster,
He may be in a class,
He may be on the campus a talking
to a lass.
If he isn't in these places
You've looked ev'rywhere—
Just find yourself a corner
And he's sure to pass you there!!!

... TERTIUM QUID ...

Today is about the right day to make a certain demand on behalf of the whole student body.

And this is the way Tertium's going about it:

Here we are already in the middle of January. Before you know it, this month will be gone! So, if you feel the strong necessity for something the college is lacking, you'd better ask for it right now.

Then, we'll probably get it.

For if we do our "asking" at present, we're giving plenty of time for the return of a fair degree of the much-needed ACTION we crave.

In other words, Tertium, trying to be reasonable, is about to ask for one of those things which S. T. C. lacks—knowing that the provision of this one thing requires only a matter of hours and little or no cost!!! To continue:

Very few students in S. T. C. know exactly who the representatives in their student body organization are. And because of the fact that few know who's who in the college, many valuable suggestions, criticisms, and ideas forthcoming from the rest of the student body die an unnatural death. Why? Because such suggestions do not find their way to the proper authorities.

Now, that is a deplorable state. For after all, what the students themselves think should carry a great deal of weight. What the students want should be properly considered. What the students need should be provided if the demands are logically and wholly beneficial.

As Tertium sees it, it is only fair to give the views and opinons of ALL of our students more earnest consideration, more thorough understanding. Since in a great unit like this college, a smooth, systematic "clicking" with less friction can never be attained if the requisitions of those parts which go to make up the whole are not truly weighed and balanced.

In other words, not for a minute should it be forgotten that S. T. C. has over 1100 "ayes" and "nays" to be reckoned with.

Now, how are the students to know with whom to confer about their needs, with whom to discuss their desires and aims? How are they to know to whom to go? As it is now, they can not know. For there is no appropriate means to enlighten them.

Well, here is where Tertium can make his request:—

Let's get together and install in the Adminstrative Building a WHO'S WHO — a list of those students worthy enough to have been elected or appointed to the respective positions which they hold in the student body.

This WHO'S WHO is about the most handy reference chart to tell **us right-off whom to see and why.**

Then there can be no doubt whether or not student's various forms of business are taken care of by the proper officials. And too, all weighty matters sent via the correct channels will then be rightfully referred to S. T. C.'s Student Affairs Committee and acted upon by the Executive Board—the two most representative bodies in the college.

I know you can see that the installation of a WHO'S WHO will be a real step forward toward that goal from whence more certain justifiable results can be forthcoming concerning student issues, which were heretofore often pigeon-holed because of the lack of authoritive investigation.

Another thing:—A WHO'S WHO will have a psychological effect on those people listed.

They are more apt to keep in mind always that they ARE in positions of great importance. They are more apt to increase the SERIOUSNESS with which they take their offices. They are more apt to strenghten their purpose to GET for the rest of the college those things which they represent themselves to be seeking.

—TERTIUM

P. S.: — How about getting the WHO'S WHO next week?

Ghastly Noises Of Musical Students Pervade Corridors

Ow-waa! Ow-waa!

No, Amos hasn't come to State Teacher's College to pay a visit. It is just the result of a certain person's seeing and hearing several over-conscientious students.

It seems that a certain reporter was scrapping every nook and corner, rummaging throuuh all halls and blind alleys, for just one word of news, when all at once her attention was arrested by a slow mournful drawl that sounded something like a cross between a bull dog and a barbed wire fence. The reporter slowly and surely made her way to the door of the room from which these horrible screeches were being poured forth. It was a ghastly sight as well as being an unearthly soud. There were wee, thin noises, big, gruff growls, screeches groans, yells, moans, and everything else that could possibly come from twenty or thirty cat gut strings.

The reporter ran down the hall, covering her ears with her hands in an Amos 'n' Andy imitation. Several hours later it was found that all the commotion was caused by nothing but a little harmless practice from a few diligent beginners who had tried to imitate such an artist as Fritz Kreisler playing "Humoresque."

However peace reigns once more, for these students have taken their instruments and are now practicing on backyard fences and fire escapes.

Pajamas Create Riot Among Men

A newly-designed pajama set was decidedly in evidence when the San Jose's basketball team met San Francisco's five at San Jose on Saturday, January 10. Although the co-eds seemed uninterested, there were many satisfied men, who have been inquiring what the well-dressed college man will wear in his leisure time this spring.

The gray pajamas, worn by the *Spartans* before and between halfs, have fully-cut bottoms tied smartly at the ankle with contrasting tape. This daring effect of Dutch pantaloons, it is predicted, may prove to be quite popular this season. It is also appropriate to have numbers on the back of the crew-necked upper. It is insinuated that this idea was borrowed from the designer's stay in San Quentin.

T. N. T.

TALK TO TEACHERS

Dear T. N. T.

Why can't we have an "A" if we deserve it? A number of instructors have announced that a certain amount of students will receive an "A", so many "B" and so forth, before the classes have even begun. Suppose there are more students who deserve an "A"? Are they just out of luck?

A Student

GET NEW AWNING

T. N. T.

The tinder to this explosion is the dilapidated display of antiquated awnings that hang unashamed over the main entrance to S. F. T. C. Perhaps some have become so accustomed to them that they do not object. But, as an incoming freshman, I noticed them particularly and I am sure that outsiders are aware of them. While the old building need not lay any claim to beauty, it can at least prevent the idea of actual decay that these time worn awnings impart. If they can't be replaced, at least remove them.

—Disgruntled

WANTED—UNIFORMITY!

Dear T. N. T.

Something should be done about the grading system at this college. You go to one class, where the instructor believes in class average, and get an "A" for an 86. While in another class, where the instructor still clings to old-fashioned methods, that same 86 is a "C".

Something is radically wrong with a system like that!

"Class Average"

WHERE CAN WE CHAT?

How about a place where students can sit and talk? There are no suitable places for students to congregate as things are now. The few benceh's along College Walk are certainly not sufficient to seat even one fourth of the student body. The green grass near Anderson Hall might solve the seating problem, were it not for the gardeners who glare at anyone who dares even to step on it.

Here's for more comfort for talkative creatures.

—Hi Freshie

NAUGHTY BOYS HAZE

Dear T. N. T.

Thursday, during the so-called "hazing" of the freshmen, several upperclassmen pointed out the fact that it was the high frosh class that was administering the "hazing." Not only that, but they picked out the small boys in the new class and left "the big football player from Lowell" alone. Some students called that strategy. I didn't. I called it cowardice. Am I right?

—An Onlooker

MORE "EDUCATORS"

Dear T. N. T.

Why doesn't S. T. C. offer a course in Public Speaking? It is quite obvious upon looking over the schedule of subjects taught that this subject is included in the college curricula.

The perfection of oral English should be regarded as essential and given as much attention as that given to the written forms of English. In fact, some are inclined to believe that it is the oral English which should be stressed the most, inasmuch as we are required to express our thoughts more often verbally than we are required to put them down in writing. A man is usually judged by those with whom he associates. He is also judged by the way in which he expresses himself.

We are attending this college to acquire more knowledge and to develop our outlook upon life, but of what value is the knowledge acquired during one's college attendance, of what value is a college education if one does not know how to express himself so that others will be able to comprehend his statements? Before one can write or express one self he must first know what he is going to say; then comes the art of expressing the thought so that others will understand it, and herein lies the value of a course in Public Speaking.

It is, indeed, regrettable that this college directs so little attention to this part of the English department. Let us hope that in the coming semester the curricula will offer, as well as include, a course in Public Speaking.

English-Speaker

PUT COTTON IN EARS

Dear T. N. T.

Pity a poor lil' reporter who must type in the publications office while the beginner's clarinet class and a sight-singing class are both trying to serenade the moon. The do-re-mi fa is overcome every now and then by the insolent wails of the clarinet. Imagine the music furnished by an orchestra made up of inmates of the insane asylum and the cannibals of a south sea island, and then you have one tenth of the noise furnished by these two classes combined. Let's have some nice sound-proof rooms in the college.

Agonizingly yours,

—Cub Reporter

ANTI-CLIMAX

Dear T. N. T.

In regard to that little "Tertium affair"—obviously the anti-climax has been reached, "we love me."

—Let's Bury the Hatchet, Huh?

Viola Wagner: (who has just lost her dog) "Miss Scott, I would like to advertise for my dog."

Mildred Scott: "What good would that do? The dog can't read."

Mr. Campbell: "Chef, show my son how to make alphabet soup. I want him to learn the A B C's of the business.

SOCIAL RELATIONS AND ANTHROPOLOGY ARE NIGHT COURSES

ALEXANDER BOULWARE

Mr. Alexander Boulware, director of the extension division, has announced that a change has been made in one of the courses offered by the extension division. The course in **Evolution of our Social Relations**, given by Dr. Henry C. Biddle, has been dropped from the extension division's curriculum this semester. A course in **Cultural Anthropology**, is being offered in its place. Dr. Biddle will continue as instructor of the new course.

Course Given Before

Cultural Anthropology has only been given at this college once before, at that time Dr. Biddle aiso was the instructor. It is a course dealing with the study of the beginnings and development of institutions, art, customs, industries, language, and religion, and the relation of these movements to the present civilization.

The change in courses was made necessary by the fact that those enrolled in the original course desired upper division credit. The course in Cultural Anthropology will entitle them to upper division credit.

Few Classes Cancelled

Aside from this one change in the curriculum of the extension division there have been very few classes cancelled for lack of support.

Arrangements are being made to establish a class in Elementary Curriculum at Burlingame. Although nothing definite has been planned it is hoped that the class will be open for enrollment soon.

Radio Club Planned

If enough students are interested in radio activities as their hobby, a S. T. C. Radio Club may be formed. Several incoming freshmen have expressed their regrets that such a club did not exist. They, together with other students interested in this line, are intending to get organized into a uniform group. Foremost among these interested is Robert W. Woolverton who already possesses a 2nd class radio operator's license, and who has had practical experience aboard ship. Mr. Woolverton maintains a transmitting station in the Presidio, where he lives. His call number is W6PQ and he has "worked" Honolulu and other distant stations. Those interested can get in touch with Mr. Woolverton. The club will be started as soon as a sufficient number of enthusiasts can be found.

Notice !

Miss Florence Vance announces that all graduates must file six pictures in the office for placement purposes.

Crowds In Co-op Amaze Students

ACCORDING to the crowd in the Book Store all the time, evidently classes have been abandoned this semester. There is never room for another single, poky, post-box-seeker to as much as put his head in the Book Store from 8-5, and the person who gets as far as the door is very lucky indeed.

As far as the students are concerned, we suppose that it is far more entertaining to watch the line file around the "co-op" than to watch the professor march up and down in front of the class. But as far as Mr. and Mrs. Marples are concerned, we suppose that they would much rather have the classes begin—and everyone begin going to them.

Game Thursday !

Registrar Requires More Efficiency In Future Fire Drills

The time for the recent fire drill that took place last Friday was one minute and fifty seconds. This, according to Miss Florence Vance, recorder, is twenty seconds slower than the time required last semester. The supervising fire chief, however, stated that the showing was very good for the first drill of the term. Several new teachers, not knowing of the drills, did not permit their classes to leave the room as soon as they should have.

Aside from these reasons, Miss Vance lays the blame for the comparatively poor showing upon several factors: one, the students realize that the fire drill is but a drill and for this reason they do not respond with alacrity; secondly, they do not understand the correct procedure.

The signal for a fire drill is the dismissal bell ringing intermittently in groups of three. At this signal, classes should not wait for dismissal but should leave the room unbidden. Do not engage in conversation, but walk quickly to the most convenient exit. The first men to reach the doors, after the bell signal has been given, should see that the exits are kept clear and the doors held wide open.

The fire drill, which may be given at any time by the fire department, is compulsory.

FROSH ELECT SPRING SEMESTER OFFICERS

At the first meeting of the freshman class held Monday noon, Bob Peterson won the presidency by a majority vote over three other candidates. Leonard Cristianson was unanimously chosen to be yell leader.

A re-election between Dorothy Tuttich and Harry Marks for the vice-presidency, and Barbara Larsen and Hazel Griffiths for the position of secretary-treasurer will be held soon.

Allen Wyatt, men's athletic manager, extended a welcome to the new class and said that he hoped the men would turn out well for athletics.

Prof. Warns Workers

A warning has been issued by Professor Arthur J. Hill, head of the chemistry department at Yale University, to graduate students and research fellows that they must not make beverages out of the grain alcohol kept in the university storehouse for experiments and laboratory work.

The warning embodied the assertion that evidence had been submitted by federal officers to the chemical department that alcohol had been diverted from rightful uses, and declared that this was "not only unlawful, but a distinct breach of faith with the University."

New Ideas Tried

Among the activities which the high grammar grades in the Frederic Burk School are carrying on, is a program which was worked out at the University High School in Oakland, under the direction of Mrs. McKay. Students in the following rooms are taking part: room 210 conducts a World Court, 211 has a Year 'Round Postoffice, 212 has a Civic Circle, and 213 has charge of the Carnival Playhouse. These groups also have charge of the student publications, *The School News* and *The Quill*.

New Books Ready

The new class-room activities in the high grammar grades of the Frederic Burk School are making demands on the Children's Library for books that have not been used before. The classes are planning to represent a carnival theater, a World Court, a Post Office, and a Civic Circle, respectively.

In order to carry out these plans, Miss Hermine Henze is making available many books on the writing of plays, play production studies of great men and their contribution as citizens, and the World Court organization.

Sunday School Teacher: "What is meant by: 'By their fruits ye shall know them'."

Christine Huttman: "Greeks and Italians."

:: Art Club Holds Meeting ::

VOICE, ORCHESTRA CLASSES INCREASE

Mrs. Mary McCauley states that the enrollment is unusually heavy this semester, particularly in the music appreciation and voice classes. Many new instrumental students have joined the orchestra, which has grown accordingly in size and talent.

At the end of the first week the College Chorus numbered one-hundred-six members. The fine and serious quality of the work the chorus is doing is shown by the fact that they are taking up the study of "A Day In Venice" by Nevin and "How Lovely Are the Messengers" from "St. Paul" by Mendelssohn.

Many new students are majoring in music, and Mrs. McCauley states there is some excellent talent among them.

The San Francisco Symphony Society sent fifty student tickets for the Sunday afternoon concert of January eleventh. These were much appreciated by the students attending, and Mrs. McCauley has arranged with the Symphony society to have a hundred tickets available the next time music students are so favored.

Unusual Discovery Made By One Class

At last it has been proven that modern woman can stand on her own feet. This remarkable discovery was made by a freshman science class after six of the feminine members stood on their feet for an entire period. There's nothing remarkable in that; but six young men had gallantly arisen and presented their chairs to the latecomers.

"Oh, no," said the instructor, "First come, first served. Will the young men please take their seats and keep them?"

The co-eds arose and huddled in the corner; there they stood, and stood, and stood, and stood.

Well, that was one class in which women had good standing!!!

President Chosen

Mr. Rudolph Lindquist, assistant superintendent of the Oakland public schools, was chosen as president of Chico State Teachers College on January 8. Mr. Lindquist will complete his work at Oakland this month and will enter his new office on February 1st. Mr. Lindquist is considered one of the best trained men in elementary education in the West.

Art Club Plans Extensive Program For This Semester

The Art Club has resumed its meetings for this term under the leadership of the newly elected president, Sue McCarte. The first meeting for this semester was held January 10, 1931, at nine o'clock. An election of officers was held, and the results were the following: Sue McCarte, president; Barbara Wuersching, vice-president; Valentine Solomne, secretary - treasurer; and Ruth McKelvey, chairman of the poster committee.

A very extensive program has already been planned, and the first event takes place January 24, 1931, when the club will visit Schaefer's Art School, 136 St. Anne St., San Francisco. They will also visit Joyce St., which is an extremely picturesque, old-world type of a street. The members of the club are planning to do some sketching at both places, in addition to taking several pictures.

Later in the term, the Art Club intends to visit Telegraph Hill, The Palace of the Legion of Honor, various art schools, the Berkeley Museum, and other equally interesting places. The club holds its regular meetings every other Saturday.

COACHING CLASS IN MATH. IS OFFERED

A special coaching class, Mathematics A, will be offered this term. The class will be held on Monday, Wednesday, and Friday, at 4:00 p. m. in room 210 in the training school. This work is a preparation for the sophomore examination. A self-instruction text, Ward, Book III, will be used.

An unusual feature of this course is, that as soon as each student passes the requirement, he may drop the course. A test will be given every two weeks. Mrs. Adele Bailey who graduated from S. T. C. in December 1930, is the instructor. Mrs. Bailey has a B. A. degree from Hunter's College in New York.

Book List Ready

Of great interest to student teachers is Miss Hermine Henze's announcement that the following special book lists, in addition to the regular graded lists, are now available in the Children's Library:

Poetry collections, illustrated editions of books, stories of adventure, books to grow on (for the 'teens).

KAPPA DELTA TAU TO GIVE PROGRAM

Members of Kappa Delta Tau will present a program of original dance sketches at S. T. C. sometime during the month of April, according to Marjory Thomson, president of the club.

The entire costuming and stage effects will be produced by the members of Kappa Delta Tau, under the direction of Mrs. Sarah Scott and Blossom Olmstead, stage-manager for the Spring Festival held last year. The program promises to be interesting, having as its feature new types of modern, interpretative dancing.

Tryouts for admittance into Kappa Delta Tau will be continued Friday of this week. Those desiring membership are asked to present a short, original, dance skit before the members of the organization. All students are eligable.

Feature Subjects In Training School

Features of the World Court, the Carnival Theatre, and the United States Postal Service are being reviewed by the upper grammar grades of the Frederic Burk School, according to Miss Hermine Henze, childrens' librarian, who finds they have secured pictures of many types of costumes from various sources, items on the numerous phases of the Postal Service, including the study of stamp collection, also, the nations entered in the World Court, its function, and duties, and decorating the classroom with flags of several countries.

Each of the rooms are exhibiting parts of their projects, while every student works upon his particular phase of the activity.

Music Tests Given

Outstanding ability has been revealed by music tests given to those members of the last two freshman classes who belong to the Kindergarten-Primary group. The tests were given by Miss Helen M. Christiansen of that department.

Examinations in music were given to forty-eight students last term, reaching the greatest number in the history of S. T. C. This term twenty-five students received the test. It is required of all new members in the Kindergarten-Primary group.

Two Visit S. T. C.

Two friends of S. T. C., the Misses Mary and Ann Grady, are visiting here from Seattle, Washington. Miss Mary Grady is the business manager of university extension service at the University of Washington. Miss Grady worked with Dr. Alexander C. Roberts, president of the college, during his four years as director of university extension service at the University of Washington. Miss Grady and her sister are to spend the winter in California during the former's leave of absence from the university.

Syllables Popular

"Little Drop of Dew" so sings Miss England's beginning music class. While gargles, off-tone basses, and squeaky sopranos, croon do, re, mi. In order to tell whether you go up or down, whether it's do, ti do or do, sol, re, you wave your hands in the air indicating how many steps between each note. According to Miss England, after you eat, dream, and sleep syllables for a few years even Beethoven's Fifth Symphony is only a matter of do, re, mi.

Freshmen Want To Know:

. . . if you heard Dr. Ethyl called Dr. Emily the same time we did?

. . . what it is that Mr. Frank Fenton, English instructor, now very much in demand, has about him? Is it "student appeal" that Mr. Fenton radiates?

. . . why Nate (last name superfluous) attended a recent dance held at the Fairmont Hotel as a stag?

. . . if the Seniors knew of the plan that was, for a while, being hatched by the insignificant Frosh? They (the insignificant Frosh) planned to reverse matters, overthrow tradition, and do the unprecedented by hazing the seniors. Lots more Freshmen than Seniors—oh my yes!

. . . who was the facetious reader that corrected Jack Crowley's essay on modern jazz and profusely inserted flip-cracks instead of constructive criticism?

. . . if you know a student at S. T. C. (a girl) whose father is not satisfied with being a minister but has to be a professor at the University of California as well. Eyes are brown and she should answer when called Gwendolyne.

. . . if Dr. Edna Barney was inspired by the audience to the pinacle of humor that she reached in her Freshman address?

. . . why so many people try to occupy the same place (alluding to the Book Store, of course) at the same time? We think there's a law (of physics) that's being broken every day at this particular spot!

. . . if the story is true that the "nickle-a-shot" photographer (hold your chin a little higher, madame) had his camera completely incapacitated by rendering professional services to some unidentified Freshman. He's gone at any rate—may his children all have hypo stains on their bibs.

Delta Phi Upsilon Appoints Committee National Meeting

Many plans for the forthcoming events of Epsilon Chapter, Delta Phi Upsilon, were completed at the first regular meeting of the current semester held January 15, at the home of Mrs. Ruth Passow.

Arrangements for the National Convention of Delta Phi Upsilon, to be held in August, were discussed and committees were appointed. A new plan for keeping in closer contact with the various chapters of the fraternity was adopted. A letter telling of the progress and activities of Epsilon Chapter is to be distributed to all other chapters each month. In addition, plans were discussed for the chapter's annual paper which will be published at the end of the semester. This will also be distributed among the outside chapters. Gertrude Olsson, vice president, is in charge of this publication.

The announcement of the Valentine bridge tea to be held February 14, at the Western Women's Club aroused much enthusiasm among the members.

After all the afore-mentioned business was transacted, the meeting adjourned and refreshments were served.

DR. RYPINS VISITS COLLEGE GLEE CLUB

Dr. Stanley Rypins had a farewell visit with the members of the Glee Club, Thursday, January 15, in the Activities Room. While the students and their guest enjoyed refreshments, Dr. Rypins told many interesting personal experiences he has had during the eight years he has been at State Teachers College. Lillian Tyrrell, former Glee Club president, presented Dr. Rypins with a genuine ostrich wallet upon which his name was inscribed. This was given to him in appreciation for the interest he has taken in the work of the Glee Club of which he was formerly a sponsor.

Art Classes Split

Art 1 is a very popular class this term according to Miss Keel Smith, art instructor.

The classes are being reduced by the elimination of pre-secondary students and those who had art in high school. However, the students seem reluctant to witdraw from the classes, so the plan is not working out well.

The Parent-Teachers Association of the Frederic Burk School is putting on an exhibition of 150 colored reproductions of famous pictures from February 2-6. Admission will be ten cents for students, and the money will be used to buy pictures for the training school.

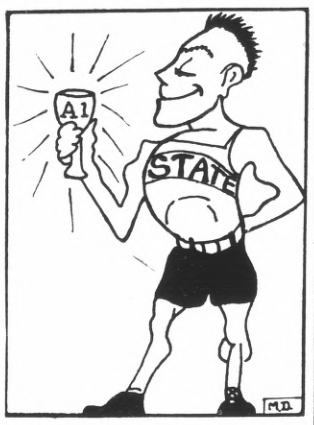
SACRED HEART GAME TOMORROW

SPORTS

MEN'S SWIM Y. M. I. FRIDAY

STUDENT IS PROVEN BEST ALL-AROUND COLLEGE ATHLETE



Winning high point honors from all other contestants in tests of ability in ten athletic events, Ed Henry last semester proved himself the best all-around athlete at S. T. C. after edging out Don Jones, his nearest rival by one lone point. Henry, before his entrance to this college, was known in athletic circles for his running ability. He was the star sprinter at "Poly" during the seasons of 1927 and 1928. At present Henry is center on the varsity basketball team here and is considered by many fans to be the most promising player on the squad.

All members of the physical education classes compete in the athletic tests and competition is expected to be keen this semester in the attempt to break Henry's record. In order to accomplish this, expectant record breakers must be outstanding athletes, for the tests cover all popular athletic games.

Here is the list of sports in which competitors are rated, with the score made by Henry in each of the events:

Speedball	2 points
Tumbling	3 points
Football	2 points
Baseball	2 points
Basketball	3 points
Rope climb	2 points
Fence vault	2 points
Push-up	2 points
Pull-up	2 points

100 yd. dash (Henry did not compete in the 100 yd. dash.)

These events, in addition to others will be the tests on which the men will be rated during the coming semester. Henry will be right up among the topnotchers next term, for he does not lose the twenty points he has made so far.

Men's Tennis Begins

Games are being lined up with different colleges at the present time. Any man interested in being on the team should meet in Room 108, Wednesday, January 21. The team has to be picked as soon as possible.

College Improved

(Cont. from page 1, col. 6)

paratus has been setup on the area in back of the buildings on Laguna Street. The apparatus is for the use of Kindergarten-Primary pupils of the Frederic Burk School, the training school of S. T. C.

The development of California State Teacher Colleges in general was discussed at the January meeting of teacher college presidents and the State Board of Education. "Many problems of development of state teacher colleges were discussed with the state board," explained Dr. Roberts.

Vince McNally, coach of the St. Mary's cagers, is drilling his players in the five-man offense, a method of play very popular in the Rocky Mountain region where a good offense is considered the best defense. This type of play first became known at Notre Dame.

S. T. C. Five Drops Fast Football Game Santa Rosa Quintet

Led by Eckman, brilliant forward, the Santa Rosa Varsity basketball team swamped the State Varsity five by the score of 45 to 21. The game was a rough and tumble affair, 37 fouls being committed by both teams. The Staters started out with a whirlwind attack, the score being 12 to 4 at the end of the first quarter in favor of the Purple and Gold, but this lead was short-lived as the Santa Rosans opened up their attack and with a flurry of baskets quickly overcame the lead of the Staters; the score at half time being 25 to 13 in favor of the home team. Eckman held high point honors with 16 points to his credit. His teammate, Ielmarini, stellar guard, played a great defensive game besides collecting 9 points for second high honors. The State five were handicapped by the loss of Ted Goldman, star center, who will be lost to the squad for the rest of the season due to a sprained wrist. Ed. Henry played his usual bang-up game, being moved to center in the absence of Goldman. Ray Kaufman led the Staters in the scoring with 8 points to his credit, Gardner and Horner played good defensive games besides figuring in the scoring with 6 points between them. Bragg and Crowley at forwards managed to collect 5 points between them and played good floor games. Murphy, fighting guard, kept the opposition and the referee busy with his fine defensive work in the last part of the game. Lineups as follows:

State		Santa Rosa J. C.	
Bragg, f	3	Eckman, f	16
Crowley, f	2	King, f	2
Kaufman, f	8	Mahoney, f	2
Henry, c	2	Clausen, f	6
Garden, g	4	Minetti, f	0
Horner, g	2	Buremister, c	4
Murphy, g	0	Snyder, c	2
		Ielmarini, g	9
Total	21	Kellogg, g	2
		Young, g	2
		Total	45

TUMBLING CLUB ASK FOR MORE RECRUITS

In conjunction with her regular class work, Mrs. Bridge is again in charge of the Tumbling Classes. Last semester the group, though small, put on some very enjoyable forms of entertainment. Under the able supervision of Lillian De Hay, president, and Mrs. Bridge, sponsor, the club is sure to progress as successfully as it did last semester. Any student interested in this form of recreation should see either of the two directors mentioned above. The more the merrier, so be sure to enter the course before it is too late.

Students Complete Life Saving Work

The following students have completed the Senior Life Saving Test and now possess the Red Cross Life Saving Pin and emblem: Margaret Graham; Helen Potasz; Margot Aase; Russelle Gettemey, (a renewal test); Dorothy Wilson.

Tests, taken at the end of last semester by these students, were given by members of the Red Cross Staff and Miss Veazie of the Y. W. C. A. staff. The students are now full-fledged Senior Life Savers. The Test must be renewed every three years in order to keep the certificate valid.

P. E. 12d, a course in Life Saving, is being planned for the Fall Semester.

SWIMMING OCCUPIES MAJOR POSITION IN COLLEGE ATHLETICS

All indications point to the fact that S. T. C. will be creditably represented at coming swimming meets with college teams by a strong aggregation of tank men. Organization has begun under the leadership of Frank Howard, himself an aquatic performer in the dorsal stroke, and a meeting has been scheduled to ascertain the real strength of the S. T. C. mermen along with the names of those who are interested. Many institutions have expressed their desire to match strokes with a S. T. C. swimming team. Both freshmen teams of the Universities of Stanford and California have bid for a meet, as well as the St. Mary, Menlo, San Mateo and Sacramento institutions. Many of the meets must necessarily be held out of town and members of the S. T. C. team will probably have much traveling to do.

Almost every event of a possible swimming program is in capable hands. Everyone is urged to try out, as two men can be used in every event. Following is the lineup, tentatively announced: 100 yd. Baptiste-Pryor-Rudd; 220 yd. Baptiste; 440 yd. Irwin; Breast-stroke, Truman; Back-stroke, Howard; Diving, (place yet to be filled); Relay, (selected from team; Medley, Truman; Water polo, Howard, Pryor, Baptiste, Rudd.

The initial practice session of the season is slated for Friday at the Young Men's Institute swimming pool, Oak and Van Ness streets. This is the time for those interested to turn out. For those who do not excel at speed swimming, a variety of events still remain. A plunge is offered for the heavier fellows, and water polo demands team work over actual speed. Remember, swimming is a major sport and as such deserves the support of the student body.

Frank Carrideo To Join Western Team

Members of the Student Body will get their last chance to see a football game on January 25. Council 615 of the Knights of Columbus is sponsoring the affair. All the proceeds will be given over to charity and the unemployed.

The latest reports are that Frank Carrideo and his Notre Dame team mate O'Connor will join the all-star aggregation. Game officials have been busy phoning to South Bend, Indiana, the winter home of the Notre Dame players.

Many of the stars of the East in the last football season will shine in this great sport classic.

Shoulders Back!

Two days of every activity course will be set aside for posture training. The first day will be before Mid-terms and will be held whenever the instructor wishes. The second day will be a common day and will be a day set aside for the College.

Every Physical Education Class will contribute toward emphasizing the necessity of good posture. It is of vital importance that every man and woman choosing the teaching profession should have a good posture and should be trained in posture.

SPORT FLASHES

The first international football scrimmage on record was duly run off according to schedule when the team of the National University of Mexico took on the boys from Occidental College, late last year. No international governmental entanglement was reported. By night, the Mexicans battled and lost to the Occidental team in the Los Angeles Coliseum.

* * *

Stanford, January 14. — John Bunn, new Stanford basketball coach is so intent upon winning his two coming tussles with Sam Barry's U. S. C. Trojans that he has instituted something new in basketball methods,—secret practice.

Students, alumni, and officials of Stanford University were kept from the practice court by barred doors when Bunn's charges opened practice for the Trojan games, which are being played Friday and Saturday at Stanford. Bunn felt that new plays were necessary because his team was scouted by Trojan coaches when it played U. C. L. A. last week-end.

* * *

Champaign, Ill., January 13. — Illinois' last half rally fell short and the Illinoi dropped their third Big Ten conference basketball game to Northwestern by a 29 to 27 score before 6000 spectators last Monday night. The Illini were held to four points during the first half, trailing 19 to 4 at the intermission.

* * *

Lawrence, Kan., January 13. — Larry "Moon" Mullins, former Notre Dame fullback star, today was presented a contract to coach the Kansas University football backfield next year. His salary was not announced. Head Coach Bill Hargiss, and Steve Hinshaw, and Mike Ghetto, assistant coaches, also were given new contracts for next year.

Track Squad To Be Formed Next Week

A meeting to sign up track prospects will be held Monday, January 26, in room 118, starting at 12:30. Coach Cox invites every man interested in track and especially those who have never been out for a team before to attend. According to Coach Cox, a squad of forty will be carried and all will have a chance to compete.

The events in which State men will show their skill include: the 100-yard dash, the 220, 440, half mile, mile, 120-yard high hurdles, 220-yard low hurdles, shot put, discus, javelin, pole vault, broad jump, high jump, and relay races.

The first meet will be the usual interclass competition; following this will be the first regular meet, which will be with Alameda High school, March 6. The second track competition will be with Polytechnic High on March 10, andt he California freshmen are next on the program.

COLLEGE HOOPSTERS MEET SACRED HEART THURSDAY

Fighting Irish To Be Season's Hardest

The State Teachers 30's and Varsity basketball teams will meet the teams of the Sacred Heart College in the College Gymnasium at 4 o'clock tomorrow.

Both games are figured to be hard fought battles as the Sacred Heart teams are figured to be the team to beat in local basketball circuits. Coached by "Red" Beagley, former Y. M. I. basketball star, the "Fighting Irish" have run up an impressive record in the practice games they have played up to date, and the Staters will have to play their best ball of the season if they are to defeat them. The lightweight game is scheduled to be one of the hardest and fastest game to be played on the local court, as both teams have met before; the State 30's won the first game by the score of 20 to 16, but an extra three minutes was played to settle the game as at the end of the regular time the score was tied at 16 up. The Sacred Heart team will be out to even up the score and a battle royal is in store for those attending the game. The first game will start at 4 p. m. Tickets are on sale at the Book Store and also by all the managers.

Probable State lineups are as follows:

VARSITY		STATE 30's	
Kaufman	f	Gemiacnani	f
Crowley	f	King	f
Henry	c	Tranburg	c
Garden	g	Trager	g
Horner	g	Fisher	g

College Stickers To Help Athletics

Have you seen them? They are all over on everyone's binders, on brief cases, and on Fords parked in front of the college. Yes, you've guessed it the first time. They're the new S. T. C. stickers. And if the college wants a football team, everyone should buy a sticker, for two and a half cents out of the 5 cents that is paid goes to support the men's athletics at the college.

Three Minor Sports Will Be Organized

An attempt to form three minor sport teams, track, swimming and tennis, from the men students of San Francisco State will be under way in the near future supervised by Dean Cox. Meetings to enroll students that wish to participate in these events will be held commencing Monday.

Schedules for the above mentioned sports are being arranged with various freshman squads of local universities, junior colleges and several of the best high school teams.

Tryouts and practice for track will be held partially on the college grounds and the remaining events at Kezar Stadium. Plans for pits and other facilities necessary for field events have been submitted to the school authorities for their approval. The work on the project will probably start immediately.

Aquatic followers will flash their speed and form in the Y. M. I. tank and the battles of racket wielders will be held at intervals on local courts.

TUMBLERS MEET TO PRACTICE STUNTS

For the first time this semester the Tumbling Club, under the presideney of Lillian de Hay and sponsored by Mrs. Bridge, met in the gymnasium on Tuesday, January 13, at 12 o'clock. The purpose of the meeting was to practice the stunts that the club presented at the W. A. A. Freshman Spread.

The club, though still in its infancy, will be accepted by the Women's Athletic Association this semester. Those who are interested in Tumbling are urged to attend the practices that are held at 12 o'clock on Monday, Wednesday, and Friday. Fourteen women are now members of the club.

THE HELPING HAND

Conducted by FRED WAHL, Box 537

LOST—A member of the faculty borrowed from Mrs Spozio the 1930 Yearbook of the **National Society for the Study of Education On Arithmetic** and has forgotten to return it. Will the Faculty member please return the book to Mrs. Spozio and earn her undying gratitude.
